Director's Pick
When Breath Becomes Air
by Paul Kalanithi

"[When Breath Becomes Air] split my head open with its beauty."
—Cheryl Strayed

"Inspiring . . . Kalanithi strives to define his dual role as physician and patient, and he weighs in on such topics as what makes life meaningful and how one determines what is most important when little time is left. . . This deeply moving memoir reveals how much can be achieved through service and gratitude when a life is courageously and resiliently lived."
—Publishers Weekly

"Part of this book's tremendous impact comes from the obvious fact that its author was such a brilliant polymath. And part comes from the way he conveys what happened to him—passionately working and striving, deferring gratification, waiting to live, learning to die—so well. None of it is maudlin. Nothing is exaggerated. As he wrote to a friend: "It's just tragic enough and just imaginable enough." And just important enough to be unmissable."
—New York Times

"Devastating and spectacular . . . [Kalanithi] is so likeable, so relatable, and so humble, that you become immersed in his world and forget where it's all heading."
—USA Today

Hidden Gems: Young Adult (YA)

If I Stay by Gayle Forman

In the blink of an eye everything changes. Seventeen year-old Mia has no memory of the accident; she can only recall what happened afterwards, watching her own damaged body being taken from the wreck. Little by little she struggles to put together the pieces - to figure out what she has lost, what she has left, and the very difficult choice she must make. Heartwrenchingly beautiful, this will change the way you look at life, love, and family. Now a major motion picture starring Chloe Grace Moretz.

Finnikin of the Rock by Melina Marchetta

Finnikin was only a child during the five days of the unspeakable, when the royal family of Lumatere were brutally murdered, and an imposter seized the throne. Now a curse binds all who remain inside Lumatere's walls, and those who escaped roam the surrounding lands as exiles, persecuted and despairing, dying by the thousands in fever camps. In a narrative crackling with the tension of an imminent storm, Finnikin, now on the cusp of manhood, is compelled to join forces with an arrogant and enigmatic young novice named Evanjalín, who claims that her dark dreams will lead the exiles to a surviving royal child and a way to pierce the cursed barrier and regain the land of Lumatere. But Evanjalín's unpredictable behavior suggests that she is not what she seems – and the startling truth will test Finnikin's faith not only in her, but in all he knows to be true about himself and his destiny.

Legend by Mari Lu

All right, it has a plague. And, yes, it's set in some semblance of America in the not-so-distant future. Yet even with all the hordes of dystopian novels out there, this one still manages to keep readers on the edge of their seats. But even the nonstop action would mean little without Lu's well-toned ability to write characters to care about. One is June, a daughter of the Republic. Her perfect scores at the Trial have insured a great future for her. Then there is Day. A hero to the street people, he fights injustice and keeps an eye on his brothers and mothers as they try to survive. Their narratives, told in alternating and distinctively voiced chapters, describe how circumstances bring them together. Day kills June's beloved soldier brother as he tries to get medicine for his own. With cold precision, June makes it her mission to exact revenge. What happens next, in macro terms, probably won't surprise, yet the delicious details keep pages turning to learn how it's all going to play out. --Cooper, Ilene Copyright 2010 Booklist
