Irresistible: The Rise of Addictive Technology and the Business of Keeping Us Hooked

by Adam Alter

"As if to prove his point, Adam Alter has written a truly addictive book about the rise of addiction. *Irresistible* is a fascinating and much needed exploration of one of the most troubling phenomena of modern times." —Malcolm Gladwell, author of New York Times bestsellers *David and Goliath* and *Outliers*

"Alter's sweep is broad: He includes not just the more obvious addictive technologies such as slot machines and video games, but the whole sweep of social media, dating apps, online shopping and other binge-inducing programs. He takes in everything (which today is most things) whose business model depends on being irresistible...[An] enjoyable yet alarming book." —Washington Post

"If you can't stop checking, clicking, surfing and liking, put your device

down and read Adam Alter's *Irresistible*, an important, groundbreaking book about why we're addicted to technology, how we got here, and what we should do next." —Arianna Huffington, author of *The Sleep Revolution* and *Thrive*

"One of the most mesmerizing and important books I've read in quite some time. Alter brilliantly illuminates the new obsessions that are controlling our lives and offers the tools we need to rescue our businesses, our families, and our sanity." —Adam Grant, New York Times bestselling author of *Originals* and *Give and Take*

"We live in an age of addiction—seemingly benign and otherwise—and Adam Alter, mixing the latest in behavioral science with briskly engaging storytelling, wakes us to an age-old problem that has found troubling new expression in the era of ubiquitous technology. You may never look at your smartphone in the same way again." —Tom Vanderbilt, author of *Traffic* and *You May Also Like*

"Looked at your phone recently? I thought so. Our devices have become more addictive than any drug, and thanks to *Irresistible*, now we know why. A powerful look at how technology sucks us in, and what we can do to resist its pull." —Jonah Berger, author of New York Times bestseller *Contagious*

The Book With No Pictures

by B.J. Novak

K-Gr 2—The actor (and writer, producer, and director) has penned his first picture book, but can it be called a picture book when there are no pictures? Entering the field of unique interactive books begging to be opened, ... this title will instantly intrigue children. Upon opening the book, readers are drawn in ("Here is how books work: everything the words say, the person reading the book has to say. No matter what."). What follows is an uproariously raucous time, with readers being forced to utter nonsense words ("blork," "bluurf") and phrases that will have young listeners in stitches ("And my head is made of blueberry pizza."). Admittedly, there are no illustrations, but Novak has employed the use of various sizes of black typeface with expansive white space and color to highlight some of the text. This book is sure to be a crowd-pleaser, and it's perfect for one-on-one sharing with a parent or caregiver. Expect requests for repeated readings.—Michele Shaw, Quail Run Elementary School, San Ramon, CA

Swim! Swim!

by James Proimos Lerch

From Goodreads: A snazzy story about friendship and true love! Lerch is one sassy, snazzy fish who seems to have it all: good looks, charm, a great sense of humor, and a perfect smile. But he's lonely (the bubbles and the pebbles ain't talkin'!) and wants to find a friend. But where? Then, with the help of an unexpected "admirer," Lerch meets Dinah, and it's true love from first glance.
