Staff Recommended Reads

Rachel Henck

The Hate U Give by Angie Thomas

This book is being talked about as THE TO READ YA book of 2017 and I can see why. *The Hate U Give* is an inspiring narrative that rings true with issues going on today. Starr is witness to the death of one of her good friends, what follows is a tough and harrowing journey of a strong teenager in the face of adversity. I'd recommend this book to everyone.

This Savage Song by Victoria Schwab

A YA book about monsters and rebellion is written so beautifully that you can almost hear the music as you read. If you are in the mood for an Urban Fantasy without goopy teenage romance, then this is the book for you. I'd suggest an eerie instrumental playlist and a cup of coffee while reading, you wouldn't want to be caught by monsters at night!

The Last Lecture by Randy Pausch

A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy?

When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living.

In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

"We cannot change the cards we are dealt, just how we play the hand." --Randy Pausch

Outliers: The Story of Success by Malcolm Gladwell

From Amazon: Malcolm Gladwell takes us on an intellectual journey through the world of "outliers"--the best and the brightest, the most famous and the most successful. He asks the question: what makes high-achievers different?

His answer is that we pay too much attention to what successful people are like, and too little attention to where they are from: that is, their culture, their family, their generation, and the idiosyncratic experiences of their upbringing. Along the way he explains the secrets of software billionaires, what it takes to be a great soccer player, why Asians are good at math, and what made the Beatles the greatest rock band.

Brilliant and entertaining, *Outliers* is a landmark work that will simultaneously delight and illuminate.

Tuesdays with Morrie by Mitch Albom

From Amazon: This true story about the love between a spiritual mentor and his pupil has soared to the bestseller list for many reasons. For starters: it reminds us of the affection and gratitude that many of us still feel for the significant mentors of our past. It also plays out a fantasy many of us have entertained: what would it be like to look those people up again, tell them how much they meant to us, maybe even resume the mentorship? Plus, we meet Morrie Schwartz--a one of a kind professor, whom the author describes as looking like a cross between a biblical prophet and Christmas elf. And finally we are privy to intimate moments of Morrie's final days as he lies dying from a terminal illness. Even on his deathbed, this twinkling-eyed mensch manages to teach us all about living robustly and fully. Kudos to author and acclaimed sports columnist Mitch Albom for telling this universally touching story with such grace and humility. --Gail Hudson
