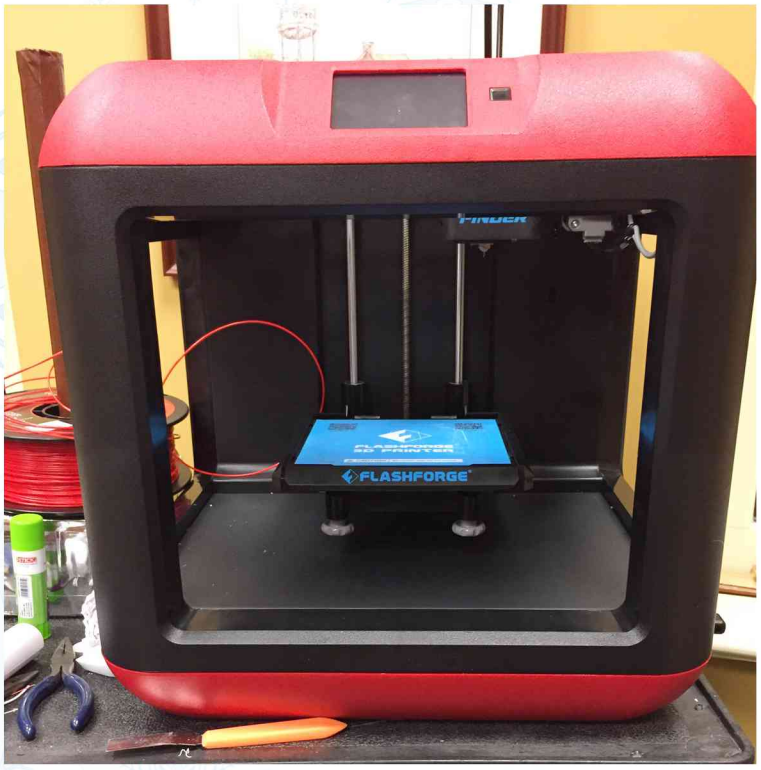
Clyde Public Library

Enhance Your Life Today

January 2018



Donations from the Friends of the Library!

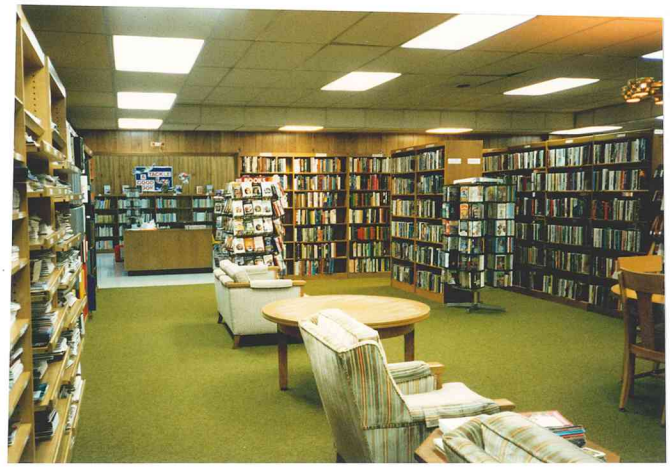
We are bringing STEM programming to the Clyde Public Library! After a successful summer of STEM related programming, the staff at the library began thinking of ways to include this type of learning year round. In January 2018, we are introducing our own Mobile Maker Cart! This cart houses a 3D Printer (purchased with a generous gift from the Friends of the Clyde Public Library), Stop Motion Animation Kit, Bloxels, Raspberry Pi, Makey Makey kits, and Snap Circuits Arcade. Also included in the cart is our Escape Room kit that we use to create Escape Room challenges at the library and access codes for Digital Escape Rooms. Programs with the cart will be held monthly by the Adult Services Librarian. Cookie Cutter Club is our monthly adult program where adults learn how to use software and work a 3D printer. Wired Wednesdays is for students in grades 6-12 that can use the resources on the cart, a different kit will be featured monthly. Tech Play Saturday is for students in kindergarten through 5th grade, where students will be able to learn to use the different kits on the Maker Cart each month. Watch for more information on these new programs at clydelibrary.org and the library's facebook page!

Did you know that the Library wasn't always at its current location?

The Clyde Public Library was originally located on the third floor of the old Union School on Vine Street.

The Library opened its doors at its current location on October 30, 1906.

On August 23, 1995, it opened its doors at the location below while the addition was being built. Anyone recognize it?



It's been almost 22 years since our renovated/expanded Library reopened on October 7, 1996.
