## Literary Elements Book Review

Title: Unlucky 13

Author: James Patterson

Reviewer: Cindi Trenter

Observations (What did you like/dislike?):

I like how Patterson brings back a character from another book that had gotten away from the police, and you are not left wondering what happened to the person and Patterson involves situations that can actually happen.

Rating (5 being the best):

Title: The Map Thief

Author: Michael Blanding

Reviewer: Linda Rowe

Observations (What did you like/dislike?):

This book squeezed my emotions. I strongly disliked Forbes Smiley, the map thief. He stole maps out of library books by tearing them out. It was great that you learn the history of some of the maps and how they came to be made. I thought the author did a good job.

Title: Eleanor & Park

Author: Rainbow Rowell

Reviewer: Felicia Girdner

Observations (What did you like/dislike?):

This world felt so familiar. I used to be Eleanor. Maybe Park was a little too perfect, but their interactions looked very familiar.

## DIRECTOR'S PICK

**"Factory Man: How One Furniture Maker Battered Offshoring, Stayed Local – And Helped Save an American Town"**  
~ by Beth Macy

"It's a must-read just for its look at what happens at home when we send jobs overseas and how we all play a role. This one is a page-turner." - - DesignSponge

"Beth Macy...understood how lucky she was when she accidentally uncovered the great, gripping story told in *Factory Man*. This is Ms. Macy's first book, but it's in a class with other runaway debuts like Laura Hillenbrand's *Seabiscuit* and Katherine Boo's *Behind the Beautiful Forevers*: These nonfiction narratives are more stirring and dramatic than most novels. And Ms. Macy writes so vigorously that she hooks you instantly. You won't be putting this book down." -- The New York Times

"The author's brightly written, richly detailed narrative not only illuminates globalization and the issue of offshoring, but succeeds brilliantly in conveying the human costs borne by low-income people displaced from a way of life—i.e., factory jobs that their Appalachian families had worked for generations. Her book is also a revealing account of the paternalistic Bassett dynasty, whose infighting was a constant diversion for everyone living in the company town. Ultimately, Bassett's efforts saved some 700 jobs and his Vaughan-Bassett company, the nation's largest wood bedroom furniture maker. A masterly feat of reporting. "

-- Kirkus Reviews, starred review

"Macy, herself the daughter of an assembly-line worker, offers a well-researched title that reads like a novel, with plenty of juicy characters and dialog." -- Library Journal

### Mosaic Photobook App (Android & IOS)

A mosaic photobook is a unique personalized gift for friends and family, or for you. It features 20 pictures (one photo per page) from your Android phone, iPhone or tablet using Facebook, or other photo albums. The book cover comes in black or white and is 7 inches by 7 inches so it's light and easy to carry with you to show off to people. Inside the cover is a collage page of 13 of the 20 photos. The photobook and packaging are of high quality, so you can give it as a gift. I made one for my mother for Mother's Day and one for my brother for Father's Day, and they both loved them. They enjoyed reliving special moments in their lives by looking at the pictures.

The cost is \$20 plus \$5 for shipping (always 4 days). Your order status is constantly updated on your app. My only gripe is that you cannot preview/crop the picture or add text before choosing it within the Mosaic app. I'm sure that you could edit/add text to your photos before you upload them to Mosaic. You can download the app for free from [heymosaic.com](http://heymosaic.com) or by searching "mosaic photobook" in the app stores.
